Start outside Dundee Science Centre

Dundee Science Centre

Exploring the past, present and future of medical science, the Dundee Science Centre is a pivotal location for anyone interested in the medical world. It provides an interactive experience where visitors can learn about the history and future of medical science.

Dundee Contemporary Arts

The DCA is located on the site of Dundee’s oldest building, the former Dundee Royal Infirmary. The building, which was opened in 1798, has been transformed into a modern art gallery and exhibition space. The DCA is one of the leading contemporary art galleries in Scotland.

Dundee Dental Hospital & School

The building was originally constructed as a dental hospital and dental school. It has since been converted into a modern dental hospital and medical school. The building is now known as the Dundee Dental Hospital & School.

Dundee Women’s Hospital

Located on the site of the former Dundee Women’s Hospital, on Orchard Road, the building has been converted into a modern hospital. It now houses the Dundee Women’s Hospital, offering specialist women’s health services.

Carnegie Building

The Carnegie building is home to Dundee University’s School of Art, Music and Design. The building is named after Andrew Carnegie, a Scottish-American industrialist and philanthropist who helped fund the construction of many libraries and hospitals.

Dundee University

The university is located on the site of the former Dundee University, which was founded in 1889. It now houses the University of Dundee, offering a wide range of undergraduate and postgraduate courses in various fields of study.

Dundee Royal Infirmary

The building was originally constructed as a hospital and medical school. It has since been converted into a modern hospital and medical school. The building is now known as the Dundee Royal Infirmary.

Dundee Science Centre

The science centre is a popular destination for visitors of all ages. It offers interactive exhibitions and demonstrations on a wide range of scientific topics, allowing visitors to learn about the world around them.

Dundee Contemporary Arts

Dundee Royal Infirmary

Located on the site of the former Dundee Royal Infirmary, the building has been converted into a modern hospital and medical school. It now houses the University of Dundee’s School of Medicine.
Dundee is now celebrated internationally for its pioneering work in medical sciences, in particular the University of Dundee’s groundbreaking research into cancer, diabetes, drug development and surgical techniques. But the city has many more amazing stories of innovation and discovery in medicine and biology, past and present, and the three walking tours presented here will introduce you to some of the most extraordinary.

Basic information about each topic is presented on this map, but you will find more in-depth information, images and videos on the accompanying website at uod.ac.uk/DundeeDiscoveriesMap.

For younger explorers, we have also included a Scavenger Hunt – look out for the cancer cell symbol on the map and see if you can find the various features listed along the way!

Please share your experience using DundeeDiscoveries.

Start at Mariner Drive car park

G W L & Associates

Gore is a US-based company. Their famous Gore-Tex fabric is used for medical technology.

James Arnett Drive

An important research team in a large group of the University of Dundee School of Medicine. For example, Ching-Lung research group is interested in the mechanism underlying diabetes. The better understanding can help develop new drugs and drugs to daily control and important public health problem.

Kirsty Sample Way

Rheumatoid arthritis is a joint disease common in the UK called Another Time.

MacKinnon Building

This building is home to the Centre for Medical Education, which has played a pioneering role in shaping medical teaching around the world. One of its most significant projects was the development of a set of clinical skills assessment tools developed in the mid-1970s as a relative objective method of assessing clinical skills - a test now worldwide.

Wilson House

The building at the end of Blackness Road is home to the Institute for Medical Science & Technology, which brings together experts in biomedical and healthcare innovation. The Centre also houses the university’s largest and most advanced medical equipment, which Dundee is a world-known for pioneering research in the field of Alzheimer’s disease, as well as home to Professor of Surgery in 1996.
