General rights

Copyright and moral rights for the publications made accessible in Discovery Research Portal are retained by the authors and/or other copyright owners and it is a condition of accessing publications that users recognise and abide by the legal requirements associated with these rights.

Take down policy

If you believe that this document breaches copyright please contact us providing details, and we will remove access to the work immediately and investigate your claim.

Have you been involved in citizen science before? Please tell us about it by completing this poll and posting in the discussion area below. If you've got a link to your project or a citizens observatory, we'd love to find out more about it.

Poll question:

Before joining this course, how have you been involved in citizen science?

Answer 1:

I've never taken part before

Answer 2:

I've casually contributed to citizen science projects

Answer 3:

I have worked on many citizen science projects

Answer 4:

I'm involved with a Citizens Observatory

Answer 5:

I have a lead role in many citizen science projects

Feedback:

Thanks for contributing! We all have different levels of experience with citizen science at this point. All it takes to get started is some enthusiasm and a genuine desire for change. If you're already experienced, well done! We hope you'll share what you've learned with others participating in the course. And if you're new at this, you're in great company and we wish you every success with your first steps as a citizen scientist.
