If you believe that this document breaches copyright please contact us providing details, and we will remove access to the work immediately and investigate your claim.

## Video - 3.1 Welcome to Week 3

Welcome to Week 3!

Last week, we looked at ways to use technology, crowdsourcing and DIY approaches to collect observations and data for your citizen science project. Thank you for sharing your ideas and approaches with us!

This week, we will explore how to keep data collectors engaged throughout the process and how you can work together with others to interpret the data you collect. We'll also look at data visualisation as a way of examining and sharing your data to help influence policy and the actions of people affected by your efforts. You'll get some hands-on practice with analysing and visualising data too.

Please join the conversation about this course on  
[Twitter](<https://twitter.com/WeObserveEU>),  
[Facebook](<https://www.facebook.com/WeObserveEU/>) and  
[Instagram]([https://www.instagram.com/weobserve\\_eu/](https://www.instagram.com/weobserve_eu/)) using the hashtag  
#CitizenScienceMOOC.

We hope you enjoy the week!
